

K-LOVE serves me as a local resident of the local community by keeping me so up to date from traffic & weather to local events & information and I don't have to worry about what they might say while my children listen. The effect on the local community if K-LOVE were to be displaced by an LPFM broadcaster would be mass devastation. Everyone listens to K-LOVE. Drive around the areas K-LOVE touches and everyone has a 88.3 sticker on their cars. I believe that the service provided by K-LOVE is in the public interest because so many listeners depend on them for news and information. During our electrical outages during all of our hurricanes K-LOVE was everyones source of info. and where to get supplies. That is a small example compared to the many children that listen to this station. It is a station that is safe for the little ears. How could other programming provide that. My house and car are both set to 88.3 K-LOVE and they never are changed. I don't even know any other stations or their call letters. Please don't take our source of PEACE away.
